

National Highways Sector Scheme Training 12D Module 1/2 Static Works on Single Carriageways

Duration:

One Day.

Group Size:

Maximum of 12 delegates

Who Should Attend?

All persons needing to become a Registered Traffic Management Operative (RTMO) as described in sector scheme document 12d.

Pre-Requisites:

All learners MUST either hold a valid NHSS 12 TTMBBC qualification or a valid qualification in either NHSS 12AB or NHSS 12C

Course Aims:

To provide delegates with the necessary underpinning technical knowledge and skill to install, maintain, alter and dismantle temporary traffic management traffic control systems on single carriageway roads.

Course Objectives:

On completion of the session delegates will: -

- Be aware of sector schemes.
- Be aware of health & safety at work.
- Be aware of risk assessments & method statements.
- Be aware of relevant codes of practice and other associated documentation when involved in traffic management.
- Identify the equipment required in temporary traffic management.
- Understand the requirements for minor works and moving works.
- Understand the different methods of positive traffic control.
- Understand how to deal with pedestrians.
- Demonstrate an ability to implement, maintain and remove safely and correctly positive traffic control systems.

Certification:

On completion all candidates will undertake 2 multiple-choice question papers which carry a 75% pass mark. Lantra Awards will make certification for successful candidates. This is an initial off the job training course, full completion of the award is achieved over a further period of up to 2 years, by undertaking on-site assessments with a suitably qualified assessor in accordance with the awarding organisations scheme rules.

NB: (Including all forms of traffic control except multi-phase traffic lights)
