

National Highways Sector Scheme Training 12 Gate Person Airlock Installer/Operator Course

Duration:

Less than ½ Day. (expected 2 to 2.5 hours duration minimum)

Group Size:

Maximum 12 learners

Who Should Attend?

Operatives who are required to be involved with the installation, operation and removal of the gate arrangement including airlocks and associated access signage.

Anyone who requires awareness of Airlock installations, operation and removal of the gate.

Pre-requisites

All learners MUST hold a valid NHSS12 TTMBBC qualification as a minimum, any other NHSS12 qualification is acceptable.

Course Aims:

To provide delegates with the necessary knowledge to assist them in becoming a competent member of a temporary traffic management team.

Course Objectives:

On completion of the session delegates will understand:

- Safety and Risks
- Requirements and Signing Layouts
- Sequence for Installation of an Airlock
- Operating an Airlock
- Multiple Entry Points with One Crew
- Dealing with Incidents and Incursions
- Completion of Works Sequence – Removing an Airlock

Be aware of:

- Risks during airlock operations
- Plant vehicle interface
- Safe industry operational procedures
- Minimum standards.

Have Knowledge of:

- Equipment used to create a 'gate' or airlock
- Requirements and role of the gate person
- Risks in connection with the role
- Industry guidance relating to airlocks
- Use of technology to manage incursions.

Certification:

On completion all candidates will undertake a multiple-choice question paper which carries a 80% pass mark. Lantra Awards will register successful candidates, and it will be valid for 5 years.
