

NHSS 12B Lead Traffic Management Operative (LTMO)

Duration:

Two Days

Group Size:

Maximum of 8 Learners

**Who Should Attend?**

All persons who will be required by their employer to undertake the role of a lead traffic management operative for static traffic management work on motorways and/or high-speed dual carriageways where temporary road markings are not required.

Pre-requisites:

Learners must either be registered with Lantra Awards as a NHSS12AB Temporary Traffic Management Operative or as a minimum they must have passed the one-day NHSS12A / B Operative course. The registration as an NHSS12B LTMO will only become effective provided the NHSS12AB General Operative logbook of assessments has been completed AND the one-day NHSS12AB General Operative course certificate is still valid.

Course Aims:

The course aims to provide learners with the required information to operate as a Lead Traffic Management Operative.

Course Objectives:

Learners will complete cover the following objectives:

- The LTMO role
- Health and safety at work
- The working environment and general requirements
- Sector scheme documents and reference documentation
- TSM Chapter 8
- Design, planning and calculations for TTM closures
- Installing and removing TTM closures
- Temporary speed limits
- Hard shoulder closures
- Total closures
- Accidents and incidents

Certification:

On completion of the course all learners will be required to undertake a written examination which carries a 75% pass mark. Lantra Awards will make certification to successful learners. To operate a Foreman you MUST complete the operatives course, complete all assessments in the Logbook and attend the foreman course before a skills registration card can be issued by Lantra Awards.

NB:

Learners who score 70-74% will be permitted to re-sit the paper not less than 2 weeks and no more than 8 weeks after the initial test date. Only one re-sit will be permitted. If a learner is again unsuccessful, they must re-sit the whole course before taking the test again. Learners scoring less than 70% must re-sit the whole course before re-sitting the end of course test. Refresher training All learners will be expected to refresh their training every 5 years to keep this qualification.
