

## Scaffold Inspection Course

**Duration:**

One Day

**Group Size:**

Maximum of 12 delegates per course.

**Who should attend?**

Any supervisors, managers and employees responsible for inspecting and signing off scaffold structures.

**Course Aims:**

The course aims to provide training as referred to in the laws relating to health and safety and work equipment, enabling employers and employees to fulfil their legal obligations.

**Course Objectives:**

Upon completion of the course the delegates will know: -

- Employer's and employee's legal responsibilities
- Different types of scaffold
- Practical inspection
- Importance of recording results

**Course Outline:**

- Employer's and employee's legal responsibilities
- Statutory requirements and codes of practice
- Materials and components
- Types of scaffold
- Load limitations
- Ties
- Working platforms
- Practical inspection
- Recording results

**Certification:**

Candidates will take a short written test, and receive a course handout summarising the topics covered. Successful candidates will receive a certificate of competence.
